	English Page	Russian Page
O.I. Yakovlev, G.D. Yakovleva, and S.S. Matyugov: Altitude Profile of the Refractive Index of Radio Waves in the Venusian Atmosphere	1	2081
A.A. Fuki: Average Radiation Pattern of an Antenna Employing the Reference Source Method to Compensate the Effect of a Turbulent Atmosphere	8	2089
G.Ye. Zil'berman, L.F. Kupchenko, and G.F. Goltvyanskaya: Theory of Light Diffraction by Transverse Ultrasound in a Uniaxial Crystal	14	2095
N.N. Gorobets and N.P. Eliseyeva: Energy and Polarization Characteristics of Corner-Reflector Antenna Radiation	24	2105
L.A. Zhivotovskiy: Generalized Stokes Parameters. Equidistant Polarization Ellipses in Space	29	2111
B.Z. Katsenelenbaum, E.N. Kortunova, L.I. Pangonis, A.N. Sivov, and A.D. Shatrov: Contribution to the Resonant Antenna Theory	34	2116
V.A. Kuznetsov, A.M. Lerer, and V.S. Mikhalevskiy: Resonant Frequencies of Disk Dielectric Resonators	43	2124
A.G. Kyurkchan: The Method of Auxiliary Currents and Sources in Wave Diffraction Problem	48	2129
B.M. Levin and S.S. Fomintsev: Effect of a Cylindrical Subreflector on Parameters of Antenna and Antenna Array	59	2140
V.M. Koshevoy: Synthesis of Frequency Sequences under Additional Constraints	67	2148
V.A. Polyanskiy: An Investigation of the Back Scattering from a Rough Surface as a Function of Surface Parameters	75	2157
Ya.S. Itskhoki, N.A. Sazonov, and Ye.F. Tolstov: Basic Characteristics of a Synthetic Aperture for an Arbitrary Motion of the Aircraft	80	2164
S.Yu. Avvakumov, A.I. Aleksandrov, V.N. Metelkin, and M.I. Finkel'shteyn: Cepstrum Signal Processing in Problems of Subsurface Radar	89	2173
Ye.M. Gershenzon, A.A. Levites, L.A. Plokhova, and A.I. Smetanin: External Synchronization of High-Power Oscillators Employing Avalanche-Transit [IMPATT] Diodes	94	2179
A.L. Virovlyanskiy and A.N. Malakhov: Magnetic Field of a Moving Electrolyte Solution	101	2186
V.V. Butuzov, V.P. Zakharov, and V.V. Kulish: Establishment Process of the Steady-State Condition in the Presence of a Parametric Interaction of Electromagnetic Waves in the Plasma of a High-Current Relativistic Electron Beam	107	2192
S.K. Dimitrov, A.V. Makhin, and O.Yu. Naguchev: Measurement of the Potential Distribution and Energy Characteristics of Particles in Electron-Optical Systems with Electron Beam Retarding	112	2198
V.S. Pitanov and V.A. Lyubivyy: Frequency Conversion Based on the Thermo-emf Effect of Hot Charge Carriers in Semiconductors	117	2204
V.K. Chevokin and V.N. Shchemelev: Dependence of the Energy Distribution and Quantum Yield on the Thickness of Insulator Photocathodes in the X-ray Photoeffect	122	2210

	English Page	Russian Page
G.V. Snigirev: Limiting Sensitivity of DC SQUIDS Employing Josephson Tunnel Junctions	128	2216
A.B. Zorin: Sensitivity of SQUIDS Employing Low-Capacitance Josephson Tunnel Junctions	135	2224

Number 2

A.A. Dvornikov, Yu.B. Il'in, V.N. Konstantinov, and V.A. Prokof'yev: One-Frequency Regimes of a Self-Excited Oscillator with a Fiber-Optic Delay Line in the Feedback Circuit	1	2234
T.V. Babkina, V.P. Vard'ya, Ye.L. Yefremov, and A.D. Shatrov: Comparative Analysis of the Impulse Transient Characteristics of Multimode Glass Fibers	10	2243
V.I. Ryzhiy and V.A. Fedirko: High-Frequency Characteristics of Ballistic Bipolar Heterotransistors	16	2250
A.M. Vasil'yev, V.Ye. Ivanov, and I.I. Tyukhov: Noise of Photocell Employing the Longitudinal Photoeffect	23	2257
V.I. Vol'man and L.M. Martynov: Analysis of H-Plane Waveguide Branching with Nonuniform Dielectric Fillings	29	2289
A.I. Kleyev and A.B. Manenkov: Coaxial Resonator with a Thin Internal Conductor	33	2293
I.K. Osmolovskiy, N.A. Savich, and L.N. Samoznayev: Altitude Extent of the Nighttime Ionosphere of Venus	42	2302
S.M. Zhurav: Emission of Electric Waves from a Flat Waveguide with Thick Walls	47	2307
S.M. Zhurav: Diffraction of Electric Waves by a Small Symmetrical Step in a Flat Waveguide	56	2316
M.Ts. Ayvazyan, Yu.N. Kazantsev, and A.N. Kopnin: Study of Systems of Short-Spacing Arrays with Application to Millimeter- and Submillimeter-Wave Functional Elements	63	2323
I.M. Braver and Kh.L. Garb: Dispersion Properties of a Rectangular Waveguide with Impedance Strip in the E Plane	68	2329
A.D. Khemalyan: Analysis of a Multielement Reflector Antenna	74	2335
V.G. Labunets: Calculation of the Cyclic Convolution Using a Combination of the Discrete Fourier Transformation with Theoretico-Numerical Transformations	80	2342
Yu.B. Korobochkin and O.M. Kurkin: Minimax Wiener Filtering Under Conditions of Partial *a priori* Ambiguity	85	2347
V.G. Taranenko: Statistical Model of an Adaptive Reflector	92	2354
A.P. Stepin and E.V. Borisov: Optimum Ranked Algorithm for Optical signal Detection	96	2381
B.A. Khadzhi: Estimates of the Arrival Times and Differences in the Arrival Times of a Signal at Separated Reception Points	100	2385
A.S. Dmitriyev and V.Ya. Kislov: Stochastic Oscillations in a Self-Excited Oscillator with First-Order Inertial Lag	105	2389
M.A. Zakharov, M.I. Molchanov, and N.G. Yaroshenko: Investigation of the Character of the Excitation of Striations in a Helium-Neon Plasma	114	2399

BRIEF COMMUNICATIONS

V.V. Korneychik: A System for Classification of E-Modes of Hollow Waveguides	118	2263
A.V. Pugovkin, V.A. Krakovskiy, and G.A. Kolchina: An Acousto-Optical Demodulator of Phase-Manipulated Signals	122	2266
M.T. Khinchuk: A Method for Noncoherent Compensation of Interfering Signals	125	2268
V.M. Katikov: Determination of the Probabilities of Tracking Disruption and Recovery in Problems Dealing with the Optimization of Search and Tracking Meters	128	2271
P.A. Andreyev, S.V. Kruzhalov, L.N. Pakhomov, and V.Yu. Petrun'kin: Stability Conditions for One-Frequency Oscillation in Ring Lasers	131	2273

	English Page	Russian Page
A.Ya. Kirichenko and S.N. Khar'kovskiy: The Effect of Ion-Plasma Oscillations on the Amplitude Characteristics of Devices Employing Prolonged Interaction	133	2275
B.N. Zinchenko, Yu.M. Lyapkalo, and O.L. Omelayenko: On the Question of Ion Protection of the Cathode of a Three-Electrode Gun	135	2277
A.A. Lipnik and K.Ya. Shtivel'man: On the Possibility of Building a Nemag Using p-Si	138	2279
F.A. Shatalov: Effect of Temperature on the Phase and Group Delay of a Signal in a One-Mode Fiber Lightguide	140	2281

Number 3

M.A. Zakharov, M.I. Molchanov, and N.G. Yaroshenko: Excitation of a Helium-Neon Discharge Plasma	1	2403
A.V. Vashkovskiy and A.V. Stal'makhov: Internal Magnetostatic Waves at the Boundary of a Magnetization Discontinuity	6	2409
Yu.A. Filimonov and A.V. Lugovskoy: Simultaneous Existence of Exchange and Magnetoelastic Oscillations of the Transmission Coefficient of a Damon-Eshbach Surface Magnetostatic Wave Through a Structure, Formed by a Yttrium-Iron Garnet Film on a Gadolinium-Gallium Garnet Substrate (YIG-GGG)	10	2412
N.S. Ginzburg and Yu. V. Novozhilova: Nonlinear Theory of Stimulated Scattering of Waveguide Modes by a Relativistic Electron Beam, Focused by a Longitudinal Magnetic Field. Basic Equations	16	2419
V.A. Syrovoy: On Invariant Solutions of the Equations of a Nonsteady-State Beam of Charged Particles	27	2430
Ya. I. Londer, I.O. Sibiryak, K.N. Ul'yanov, and A.B. Tskhay: Calculation of Electron-Optical Systems Under Gas Ionization Conditions	38	2442
G. Ye. Zil'berman, L.F. Kupchenko, and G.F. Goltvyanskaya: Diffraction of Light by Ultrasound in Optically Active Uniaxial Crystals	45	2449
S.V. Boritko, Yu.V. Gulyayev, and G.D. Mansfel'd: Acousto-Electronic Interaction in a Piezoelectric-Semiconductor Film Layered Structure with a Periodic Array of Contacts	51	2455
V.M. Ginzburg: Analysis of the Energy Characteristics of a Quasiholographic Pulse Measuring System with Beam Wobbulation During the Time of the Pulse	56	2461
R.M. Dzhala: Longitudinally Slotted Cylindrical Shield with Finite Thickness and Electrical Conductance	62	1
N.A. Armand, I.N. Kibardina, and A.N. Lomakin: Losses in Gain and the Radiation Pattern of a Linear Antenna in Anisotropic Turbulent Atmosphere	68	8
V.R. Shleye: Differential Equations for Matrices of a Nonuniform Line	75	15
A.V. Tikhonravov: Optimality Conditions in Radio-Physical Synthesis Problems	78	19
B.M. Levin and A.D. Yakovlev: Antenna with Loads as an Impedance Dipole with Variable Impedance	84	25
I.Ye. Nefedov and V.V. Shevchenko: Transfer Characteristics of Multimode Fiber Lightguides. Theory	92	34
Kh.L. Garb, P.Sh. Fridberg and I.M. Yakover: The Diffraction of the H_{10} Mode of a Rectangular Waveguide from a Thin Resistive Film with a Step-Variation of the Surface Impedance	99	41
G.G. Goshin: Excitation of a Biconical Line	106	49
V.V. Zarubanov and A.S. Il'Inskiy: A Spectral Method for Computation of Losses per Unit of Length in Single and Coupled Microstrip Transmission Lines. The Infinitely Thin Strip Model	112	55
S.L. Prosvirnin and D.G. Seleznev: An Investigation of Some Types of Open Resonant Systems Containing Inhomogeneities	120	63
V.P. Lisitsyn and V.S. Perunova: Computation of Nonstationary Radiation of Dipole Antennas with the Help of an Integral Equation in Time Domain	129	72

	English Page	Russian Page
M.L. Pereyaslavets: Synthesis of a Waveguide Filter and Mode Converter with a Decreased Nonresonant Pedestal	133	76
A.M. Rybalko and V.A. Pavlyuk: Limiting Directivity of a Ring Antenna Array	139	82

Number 4

Yu.A. Kravtsov and V.S. Etkin: Dynamic Correlation Degree and the Problem of Determining the Dynamic Nature of Random Processes	1	2358
I.A. Golyanitskiy: Optimum Detection of Signals Buried in Normal Noise Using a Multiposition System	7	2365
V.A. Bureyev, V.Ye. Kirakosyants, and V.A. Loginov: Comparison of Noncoherent and Heterodyne Methods of Optical Signal Reception with Atmospheric Turbulence Effects Taken into Account	11	2369
V.Ye. Kirakosyants and V.A. Loginaov: Optimal Algorithm for the Detection of an Optical Signal Distorted as it Propagates in a Turbulent Atmosphere	18	2376
A.B. Shmelev: Relationship between Optimal Filtering and Interpolation of Random Signals in Observations Against a Background of White Gaussian Noise	24	86
V.A. Bureyev, V.E. Kirakosyants, and V.A. Loginov: Efficiency of Coherent Reception of an Optical Signal Propagating in a Turbulent Atmosphere	28	90
S.A. Lebedinsky, I.I. Ninakova, and V.I. Nazarov: Choice of Types of Couplings in Multiloop Frequency Stabilization Systems for Oscillators	32	94
V.N. Kolesnikov and Yu.G. Tishchenko: Determination of the Parameters of a Plasma with a Low Average Intensity of Characteristic UHF Emission	39	102
A.N. Solov'yev, M.B. Tseytlin, and B.A. Belyavskiy: Analysis of the Conditions of Excitation of Higher Order Oscillations in an Orotron Based on a Nonlinear Multifrequency Theory	42	106
I.A. Man'kin and V.G. Shkol'nikov: Pulsed Oscillatory Processes in a Traveling-Wave Oscillator with External Feedback	47	111
V.I. Gayduk, V.N. Makarov, L.M. Nutovich, B.M. Paramonov, and M.B. Tseytlin: Application of the Model of a Locally Uniform Space-Charge Density to the Analysis of Energy Transfer in a M-Type Flat Amplifier	51	116
T.T. Mnatsakanov and T.Ye. Tugusheva: Unique Features of the Volt-Ampere Characteristic in the Presence of Dual Injection in Silicon Multilayer Structures Having a Narrow Base Region	61	127
V.G. Leyman: Instability of Charge Drift Motion in the Electric Image Field	67	133
V.N. Yevdokimov: Calculating the Field of Multistrip Electrostatic Deflection Systems	70	136
S.Ye. Fedorov and A.N. Mart'yanov: Selection of Signals for an Optical Digital Channel	73	139
V.G. Astafurov and G.N. Glazov: Comparison of the Light Intensity Measurement Accuracy by the One-Electron Pulse Counting and Charge Accumulation Methods	82	148
G.Ye. Zil'berman, V.V. Proklov, L.F. Kupchenko, and G.F. Goltvyanskaya: Nonreciprocal Acousto-Optic Effect in a Medium Having a Large Dielectric Constant Dispersion	90	156
B.V. Apel'tsin and A.G. Kyurkchan: Rayleigh's Hypothesis and the Analytic Properties of Wave Fields	97	193
G.I. Komar, A.I. Nosich, and V.P. Shestopalov: Waveguiding Properties of a Reflector-Type Slotted Line	112	211
V.M. Butorin and A.T. Fialkovskiy: Theory of a Crossed Transition between Rectangular and Round Waveguides	118	218
E.P. Kurushin: Variational Principle for Resonators and Waveguides with Anisotropic Walls	127	227
V.P. Lyapin, M.B. Manuilov, and G.P. Sinyavskiy: Calculation of Diaphragms and Dielectric Windows in Multimode Rectangular Waveguides	130	230
